

PREGNANCY TRACKING SYSTEM

*GUIDING YOUR JOURNEY, NURTURING YOUR JOY:
EMBRACING MOTHERHOOD TOGETHER*

*DOH-CHD
Region XII*

System Overview

Pregnancy tracking system - is a comprehensive platform designed to provide expectant mothers and healthcare providers with a unified and empowering pregnancy journey.

Through a seamless integration of advanced technology and user-centered design, the system revolutionizes the way pregnancy is experienced, monitored, and cared for.

OBJECTIVE

"To Orient Health Workers and Information technology (IT)/ Encoder staff that enhances well-being, in all facilities catering maternal and newborn services both public and private informed choices, and fosters strong collaboration. We aim to transform the pregnancy journey, ensuring healthier, more confident mothers and improved maternal care."

FEATURES OF THE PREGNANCY TRACKING SYSTEM

HEALTH MONITORING

- Vital indicators: The system allows users to monitor essential health metrics such as blood pressure, weight.

USER-FRIENDLY INTERFACE

- Cross-device access: The system can be accessed seamlessly from smartphones, tablets, and computers.

DATA INSIGHTS

- Data-driven advice: The system analyzes tracked data to provide valuable insights, aiding both mothers and healthcare providers in making informed choices.
- Trends and patterns: Visualizations highlight trends in health indicators, enabling early identification of potential concerns.

SECURITY AND PRIVACY

01

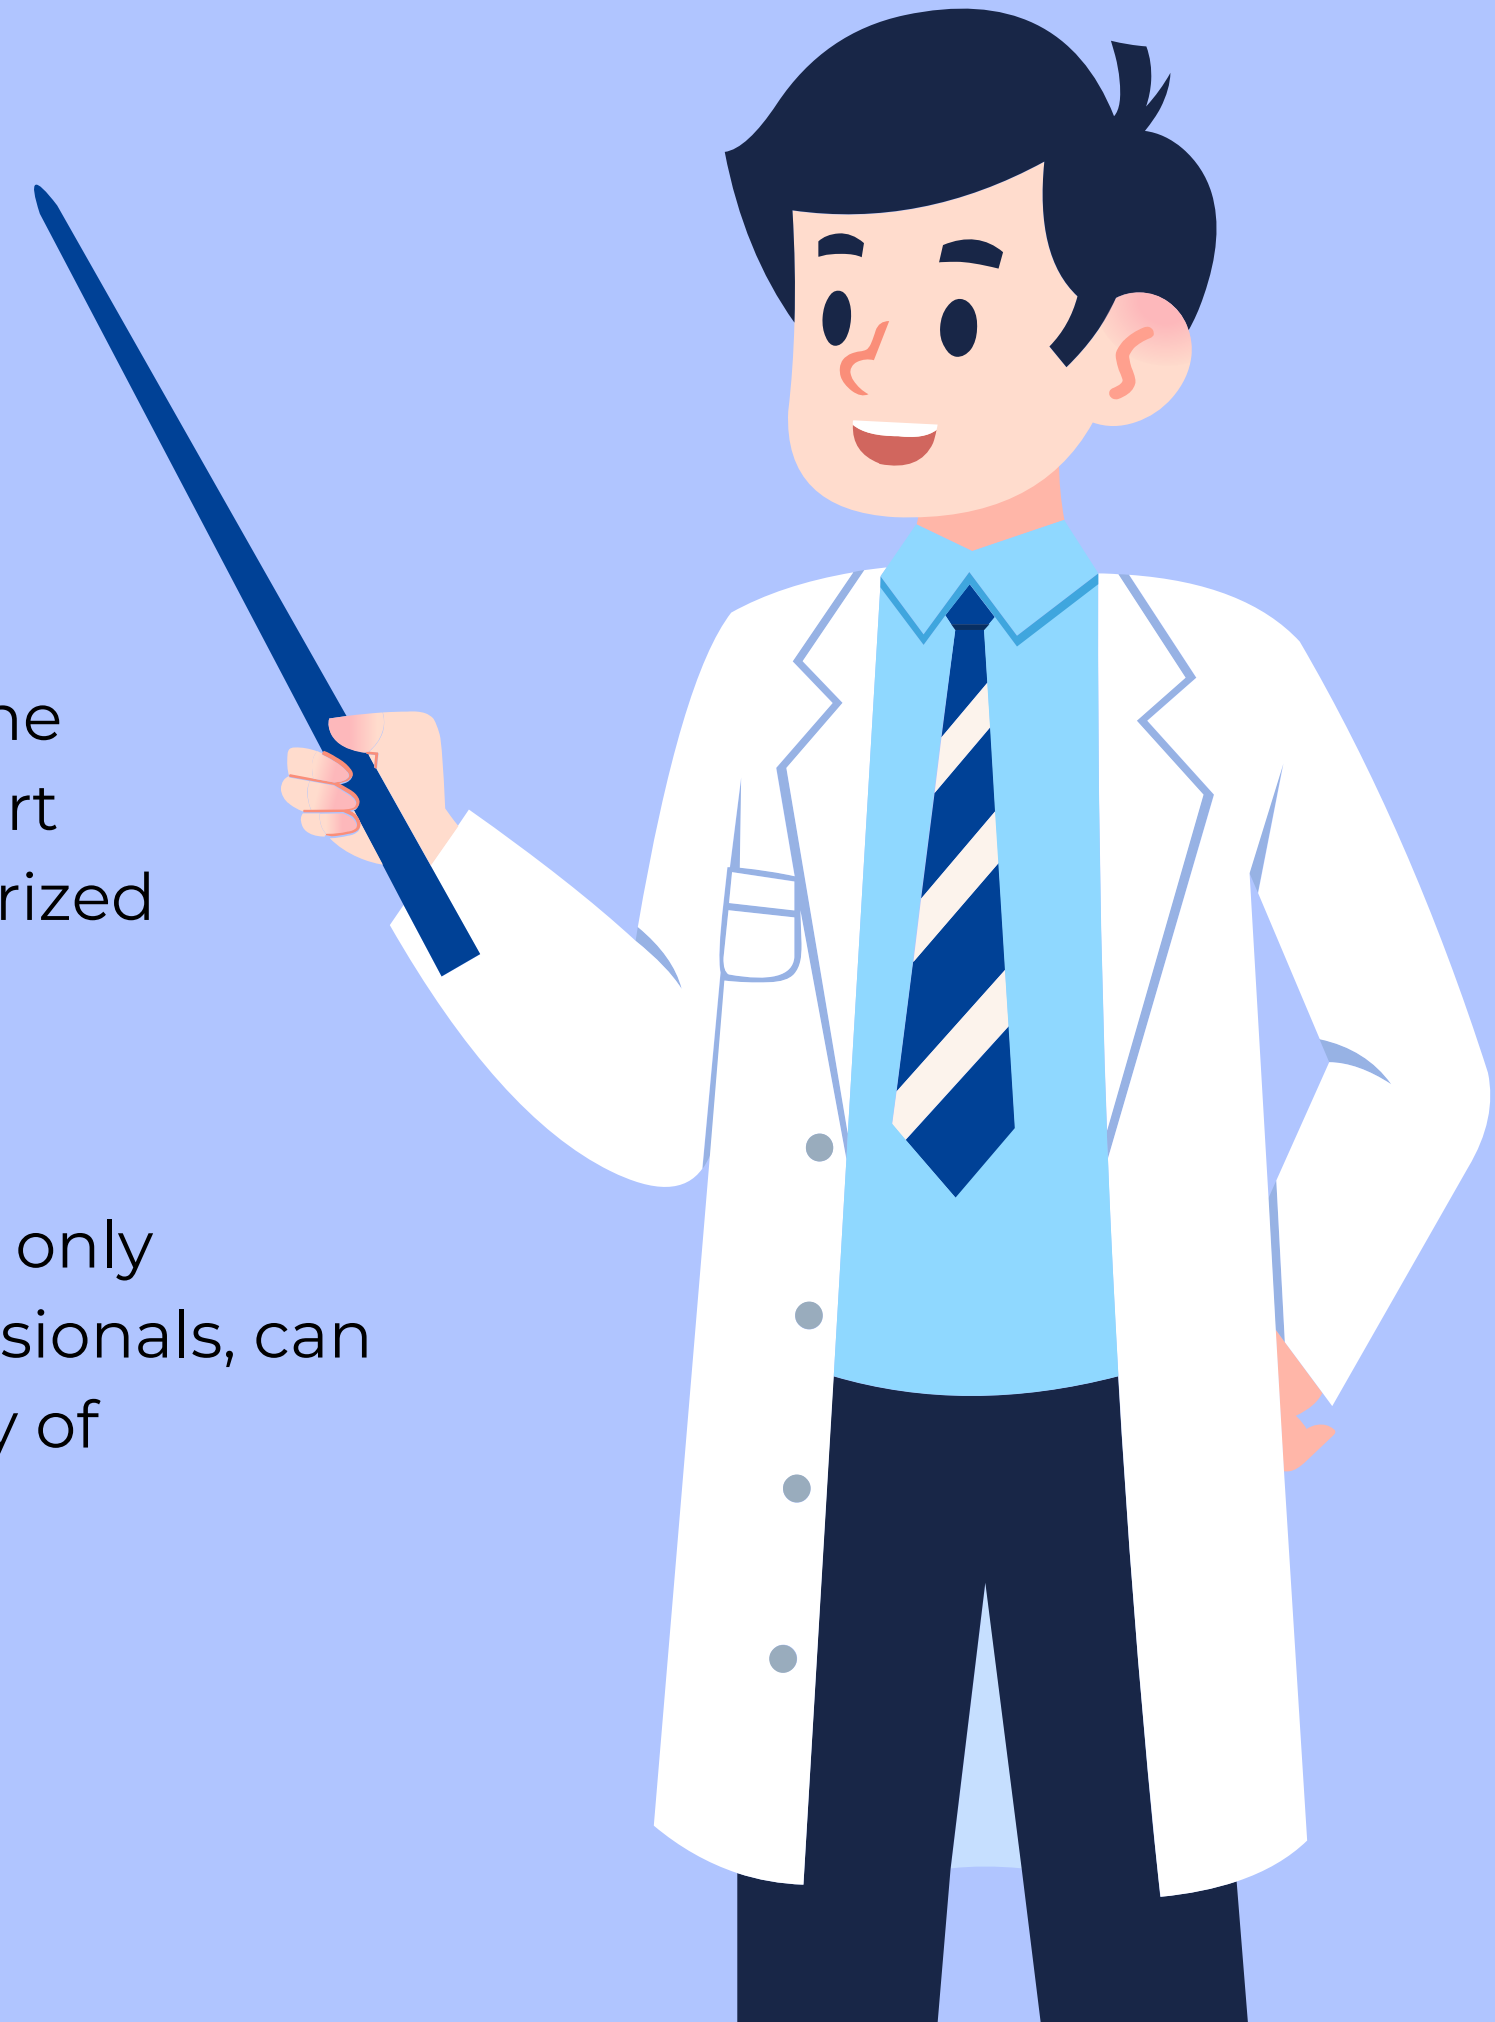

DATA ENCRYPTION

All data transmitted and stored within the system is encrypted using state-of-the-art protocols, safeguarding it from unauthorized access.

02

USER AUTHENTICATION

A robust authentication process ensures that only authorized users, including healthcare professionals, can access the system, guaranteeing the integrity of personal information.

SECURITY AND PRIVACY

03

SECURE SERVERS

Our dedicated servers follow industry best practices to prevent data breaches. Regular security audits and updates fortify our infrastructure against emerging threats.

04

COMPLIANCE

Our system adheres to stringent data protection regulations, such as data protection standards, reinforcing our commitment to safeguarding user information.
